

Uniform Policy

Rationale:

Catholic schools have a long tradition of school uniforms as an important dimension of school life. School uniforms provide a strong sense of identity and contribute to inclusiveness and equity in schools. It is a significant expectation at St Anthony's Primary School that all students will wear the correct uniform, and are supported by their parents/carers.

The uniform reflects the school community standards and expectations as well as assisting the school community to:

- Promote a sense of inclusiveness, non-discrimination and equity – students are known for who they are and what they do, not what they wear
- Foster the ethos of Catholic schools where all people are treated equally regardless of financial circumstances
- Recognise its student members
- Define the identity of the school within its broader community
- Promote school spirit
- Foster the school as an ordered and safe environment, where students gain an increasing appreciation of positive personal presentation
- Eliminate the risk of peer pressure to wear clothes which might be inappropriate, transitory items of fashion and/or expensive in nature
- Provide some quality control over the durability of clothing items.

The continued development of a positive school culture is an activity that must be carried out by each and every member of the school community each day. While school uniform is but a part of the overall positive school culture at St Anthony's, it is a highly visible and symbolically important factor. Thus students, parents and staff must share responsibility for student compliance with good standards of school uniform.
