

# Mathematics in our classrooms!

*Presented by Michael Ymer*

**Tuesday 30<sup>th</sup> May 2023**

7.00pm to 8.30pm

@ St Anthony's

You are invited to a St Anthony's Parent Information Night with Michael Ymer! Michael is a specialist mathematics consultant from Melbourne, Australia. He is involved in many Professional Development programs in schools across Australia and Asia.

Michael is an enthusiastic and entertaining presenter who has a clear and practical approach to the challenges that confront schools and parents in mathematics. On this evening Michael will address the following:

- What is my child learning in mathematics?
- How can I help my child become an efficient problem solver?
- How do children best learn mathematics?
- What is quality thinking and learning?
- How can I help my child in mathematics?

We recommend this evening to all parents as a very worthwhile session that will help you understand the focus of mathematics in our school today. It will offer strategies and ideas to help you support your young mathematicians.

This information session is for parents and carers ONLY, therefore, children will not be required to attend. Please make arrangements for your children to be looked after if you wish to attend. If you would like to attend, but cannot find supervision for your children, please contact Kate Horley on 8099 7800.

We look forward to sharing this evening with you.
